Professional Summary

Dedicated Full Stack Developer with strong backend focus and experience in cloud infrastructure and scalable architecture. Passion for building high-performance AI-driven and innovative applications with real-world impact.

Education

Bachelor of Science in Computer Science, USAID Scholarship Recipient **Aug 2022 – May 2025**
Lebanese American University

Professional Experience

Full Stack Web Development Intern – The Digital Hub UNRWA Jan 2026 – Present

- Engineered end-to-end full-stack features using **Next.js, Fastify, React, Angular, and Python (Django, FastAPI).**
- Designed scalable **RESTful** APIS using **NextJS, Express.js, Fastify, FastAPI** to support real-time app-demands.
- Enhanced AI retrieval pipelines by integrating RAG systems with vector databases and hybrid search strategies.
- Strengthened security and performance via auth flows (JWT, RBAC) and optimized SQL/NoSQL databases.
- Applied SOLID principles and design patterns within an Agile team to deliver maintainable, scalable solutions.

SAP S/4HANA Consultant Intern – Sword Group, Beirut, Lebanon Sep 2025 – Nov 2025

- SAP S/4HANA Configuration: System setup and organizational configuration for S/4HANA Cloud Public Edition.
- **Business Process:** Studied core business processes and workflows in different modules using the **SAP Fiori**.
- Cloud Architecture & Integration: Explored extensibility via SAP BTP and cloud deployment best practices.

IT Support Intern – Lebanese American University, Beirut, Lebanon Jan 2025 – April 2025

- Provided on-site technical support, troubleshooting hardware and software issues for students and faculty.
- Enhanced real-time problem-solving and technical communication within a professional academic setting.
- Managed system maintenance, including formatting, driver installations, and OS deployment.

Project Experience

LMS Platform (Full-Stack + AI Integration): Next.js, Node.js, FastAPI, PostgreSQL | GitHub

- Built LMS education life-cycle management, integrating RAG-based AI for contextual Q&A and candidate search.

Cloud Computing Project: AWS & Docker

- Deploying a containerized Node.js application on **Amazon ECS** behind an **Application Load Balancer**, integrated with an HTTP API Gateway (Scalable environment).

Network File Sharing System: Python & Flask GUI | GitHub

- A multi-threaded client-server system for simultaneous, reliable peer-to-peer file transfers using Flask interface.

Skills

- **Programming Languages:** Java, Python, C, SQL, PHP, JavaScript, TypeScript, CUDA C, HTML, CSS.
- **Frontend Development**: React, Next.js (App Router, SSR, SSG), Angular (Standalone Components, Signals, NgRx Signals Store, Angular Material), Responsive UI/UX Design
- **Backend Development:** Node.js, Express.js, Fastify Next.js API Routes, Django, FastAPI, RESTful API Design.
- **Databases & Data Management:** MongoDB, Mongoose, Prisma, MySQL, MariaDB, PostgreSQL, Oracle, Quadrant (Vector Database**).**
- **Authentication & Security:** JWT Authentication**,** Session-Based Authentication, Cookie Management, Role-Based Access Control (RBAC), Protected Routes.
- **Cloud Infrastructure:** AWS (Cloud Practitioner Level): **Networking** (VPC, subnets, route tables), **Security** (IA services), **Compute** (EC2, ECR, ECS, Fargate, Lambda), **Storages**, **RDS**, **Scalability** (ALB, NLB).
- **AI: Retrieval-Augmented Generation** (RAG), Vector DB, Prompt Engineering, and **LLM Optimization**.

- **Soft Skills**: Strong communication and presentation skills, combined with teamwork, problem-solving, and adaptability in technical environments.

Volunteer Experience

Cedars For Care - Volunteer: Led donation campaigns supporting underserved families.
Ahla Fawda & Bena' Ajyal - Volunteer: Managed youth mentorship activities and community events.
